Subject: Phillips 66 rail project

Hi –

I'm David Arno, an oil markets reporter for Genscape in Houston. I was wondering, did Phillips 66 get back to the County Dept. of Planning and Building with the additional information requested by the deadline? If yes, what was the additional information? What's next in this step then?

If no, has P66 communicated why that is? Is the project dead then?

Thanks,

David Arno
Oil Editor
